📍 Portfolio: [minhthien-portfolio.vercel.app](https://minhthien-portfolio.vercel.app) 📍 F19, Phan Chu Trinh, Tran Bien District, Dong Nai Province

## OBJECTIVE

I am a second-year Information Technology student with a strong interest in Frontend Development. Familiar with ReactJS, JavaScript, HTML, CSS, REST APIs, and Git through coursework and personal projects. I am looking for an internship where I can apply my skills, gain practical experience and contribute to real-world projects.

## EDUCATION

FPT University September 2024 - Present

Bachelor of IT ( Software Engineering )

Learning frontend development through coursework and personal projects.

## CERTIFICATIONS

Web Design for Everybody: Basics of Web Development & Coding Specialization July 28, 2025

Software Engineering Specialization March 22, 2026

User Experience Research and Design July 3, 2026

## HONORS & AWARDS

Silver Medal – Vovinam Musical Martial Arts August 2025

Võ Việt Tranh Hùng Đoạt Cúc Vương / FPT University

## SKILLS

**Frontend** : HTML5, CSS3, JavaScript (ES6+), ReactJS, Tailwind CSS, Zustand, Bootstrap

**Backend (Currently Learning)**: TypeScript, Node.js, Express.js

**Version control** : Git, GitHub

**Language** : English (IELTS 6.0)

## PROJECTS

eParking Management System June 2026 - July 2026

**Frontend Developer (Team Project)**

Built and maintained the entire frontend UI using ReactJS, Tailwind CSS, and React Router, then refined components based on team feedback and testing. Integrated REST APIs with Axios for booking and authentication flows. Collaborated with teammates via Git/GitHub for version control.

JamWave – Music Streaming Web Platform August 2026 - Present

**Frontend Developer**

Built a Spotify-inspired music streaming platform with **2,400+ tracks** from external music APIs.

Developed a custom **audio player** with React and Zustand, supporting queue, seeking, volume, and continuous playback.

Implemented **search, playlists, and liked songs** with REST API integration.

Integrated an **AI music assistant** for natural-language music search and recommendations.
